Quick Start Guide for RouteX

1. Download RouteX

- Get RouteX from the App Store on your iOS device.

2. Registration

- Open RouteX and register using your email and a password.

3. Search for Destinations

- Use the search bar to type in the address of where you want to go.
- For specific rooms, include the room number in your search along with the rest of the address.

4. Navigation

- Follow the directions displayed on the screen to navigate to your destination.

5. Save Favorite Locations

- Create pins for frequently visited places for quicker access.

6. Explore Nearby

- Discover nearby restaurants and facilities using RouteX's suggestions.

Tips:

- Enable location services for accurate navigation.
- Customize your profile for a personalized experience.
- Check for updates regularly for new features and improvements.
